Waterproof Monopole Whip Antenna

11/3/2021 – San Jose, California: RFMW announces design and sales support for a Southwest Antennas’ monopole whip antenna. The 1000-046 omni-directional antenna operates from 330 to 360 MHz with a peak gain of 2.0 dBi. This flexible antenna features a tough, braided aircraft wire element with a sealed heat shrink exterior and fully potted and waterproof base containing the antenna’s matching components. The resulting antenna is rugged for use in harsh environments yet is flexible enough to bend if the whip is impacted by another object. The 1000-046 features a BNC male connector for attachment.

Samples are available for qualified requirements through RFMW at 1-877-FOR RFMW (367-7369) within North America; or please find your local sales engineer (worldwide) at the contact page on the RFMW web site.

About RFMW

RFMW is a specialty electronics distribution company focused exclusively on serving customers that require RF and microwave components and semiconductors, as well as component engineering support. The company continues to expand its list of products from selective suppliers with RF/microwave expertise. RFMW deploys a highly experienced, technically skilled team to assist customers with component selection and fulfillment.
