Uniform Power Reduction over Frequency and Temperature

2/10/2021 – San Jose, California: RFMW announces design and sales support for the API Technologies Powerfilm, **PCA3060** series of fixed attenuators. Optimized for radar, T/R modules, E/W, mmWave and 5G applications up to 30 GHz, the **PCA3060** surface mount, fixed attenuators handle up to 1W of power in an 0603 size package. Built using proprietary thin film processes, available attenuation values range from 0 to 10 dB in 1 dB increments, 10, 12, 15 and 20 dB. Ideal for amplifier circuits, receivers, up/down converters, phase‐matched arrays and switching networks they are suitable for drop-in or wire bond attachment with tin‐lead, gold or RoHS compliant terminal finish.

Samples are available for qualified requirements through RFMW at 1-877-FOR RFMW (367-7369) within North America; or please find your local sales engineer (worldwide) at the contact page on the RFMW web site.

About RFMW

RFMW is a specialty electronics distribution company focused exclusively on serving customers that require RF and microwave components and semiconductors, as well as component engineering support. The company continues to expand its list of products from selective suppliers with RF/microwave expertise. RFMW deploys a highly experienced, technically skilled team to assist customers with component selection and fulfillment.

To learn more about RFMW, visit their Website at www.rfmw.com, or call us at 1.877.FOR.RFMW (367-7369), or via e-mail at info@rfmw.com.
