Bench Top 400 Watt X-band Amplifier

2/16/2022 – San Jose, California: RFMW announces design and sales support for a Solid State Power Amplifier (SSPA) from RF-Lambda. The REMC08G11GE delivers up to 55 dBm of saturated power output over a range of 8 to 11 GHz with 56 dB of gain. Used in various applications ranging from Aerospace/Military, Test and Measurement, and Research/Development, the benchtop amplifier is a convenient source of high-power RF energy. Supply voltage is either 110 or 220V AC. The REMC08G11GE EMC power amplifier is loaded with features such as automatic calibration, built-in temperature compensation and adjustable attention range of 31.5 dB with 0.5 dB step size.

Samples are available for qualified requirements through RFMW at 1-877-FOR RFMW (367-7369) within North America; or please find your local sales engineer (worldwide) at the contact page on the RFMW website.

About RFMW

RFMW is a specialty electronics distribution company focused exclusively on serving customers that require RF and microwave components and semiconductors, as well as component engineering support. The company continues to expand its list of products from selective suppliers with RF/microwave expertise. RFMW deploys a highly experienced, technically skilled team to assist customers with component selection and fulfillment.

To learn more about RFMW, visit their Website at www.rfmw.com, or call us at 1.877.FOR.RFMW (367-7369), or via e-mail at info@rfmw.com.
