LDMOS Amplifier Module supports Multi-Octave Bandwidth

3/1/2022 – San Jose, California: RFMW announces design and sales support for a high power amplifier module from Elite RF the MB030512M565028 incorporates advanced, state-of-the-art LDMOS technology to deliver 350 Watts of saturated power from 30 to 512 MHz. Biased class AB, the amplifier provides 52 dB of gain and works in CW or pulsed mode to support applications including Electronic Warfare (EW), commercial and military radios, jammers, scientific, and laboratory use. The MB030512M565028 can be used in narrowband and multi-octave bandwidth applications and comes with an industry leading 5-year warranty.

Samples are available for qualified requirements through RFMW at 1-877-FOR RFMW (367-7369) within North America; or please find your local sales engineer (worldwide) at the contact page on the RFMW web site.

About RFMW

RFMW is a specialty electronics distribution company focused exclusively on serving customers that require RF and microwave components and semiconductors, as well as component engineering support. The company continues to expand its list of products from selective suppliers with RF/microwave expertise. RFMW deploys a highly experienced, technically skilled team to assist customers with component selection and fulfillment.

To learn more about RFMW, visit their Website at www.rfmw.com, or call us at 1.877.FOR.RFMW (367-7369), or via e-mail at info@rfmw.com.
