Advanced GaN on SiC Amplifier Module

4/5/2022 – San Jose, California: RFMW announces design and sales support for a high power amplifier module from Elite RF. The MB.406.0G363228 incorporates advanced, state-of-the-art, GaN on SiC technology to deliver 4 Watts of saturated power from 400 to 6000 MHz with a P1dB of 2W. Biased class AB, the amplifier provides 32 dB of gain and works in CW or pulsed mode to support applications including EW, commercial and military radar, jammers, SATCOM, mobile infrastructure, scientific, medical and laboratory use. The MB.406.0G363228 can be used in narrowband and decade bandwidth applications and comes with an industry leading 5-year warranty.

Samples are available for qualified requirements through RFMW at 1-877-FOR RFMW (367-7369) within North America; or please find your local sales engineer (worldwide) at the contact page on the RFMW web site.

About RFMW

RFMW is a specialty electronics distribution company focused exclusively on serving customers that require RF and microwave components and semiconductors, as well as component engineering support. The company continues to expand its list of products from selective suppliers with RF/microwave expertise. RFMW deploys a highly experienced, technically skilled team to assist customers with component selection and fulfillment.

To learn more about RFMW, visit their Website at www.rfmw.com, or call us at 1.877.FOR.RFMW (367-7369), or via e-mail at info@rfmw.com.
