Meeting the 5G mmWave Filter Challenge White Paper

5/15/2019 – San Jose, California: RFMW, Ltd. announces availability of a white paper from Dielectric Laboratories (DLI). “Meeting the 5G mmWave filter challenge” outlines and explains the challenges in moving from radios operating in the range of 700 MHz and 2.6 GHz to mmWave frequencies at 28 or 39 GHz. The paper outlines some key factors that need to be considered in selecting a filter solution and how DLI are meeting these challenges with their filter technology.

Samples are available for qualified requirements through RFMW, Ltd. at 1-877-FOR RFMW (367-7369) within North America; or please find your local sales engineer (worldwide) at the contact page on the RFMW web site.

About RFMW

RFMW Ltd. is a specialty electronics distribution company focused exclusively on serving customers that require RF and microwave components and semiconductors, as well as component engineering support. The company continues to expand its list of products from selective suppliers with RF/microwave expertise. RFMW deploys a highly experienced, technically skilled team to assist customers with component selection and fulfillment.
