7.9 to 11.0 GHz 15 W GaN Power Amplifier

7/1/2021 – San Jose, California: RFMW announces design and sales support for an X-band radar amplifier from Qorvo. Performing well under both CW and pulse operations, Qorvo’s QPA1010, high power MMIC is 100% DC and RF tested on-wafer to ensure compliance to electrical specifications and typically provides 15 W saturated output power from 7.9 to 11.0 GHz with power-added efficiency of 38% and 18 dB large-signal gain to meet SWaP-C goals.

Samples are available for qualified requirements through RFMW at 1-877-FOR RFMW (367-7369) within North America; or please find your local sales engineer (worldwide) at the contact page on the RFMW web site.

About RFMW

RFMW is a specialty electronics distribution company focused exclusively on serving customers that require RF and microwave components and semiconductors, as well as component engineering support. The company continues to expand its list of products from selective suppliers with RF/microwave expertise. RFMW deploys a highly experienced, technically skilled team to assist customers with component selection and fulfillment.

To learn more about RFMW, visit their Website at www.rfmw.com, or call us at 1.877.FOR.RFMW (367-7369), or via e-mail at info@rfmw.com.
