Coaxial Power Divider/Combiners support mmWave 5G

9/12/2019 – San Jose, California: RFMW announces design and sales support for MECA Electronics 2-way and 4-way, broadband power divider/combiners. The 802-3-23.000 RF power divider/combiner offers 2-way, in-phase performance from 6 to 40 GHz. The 804-3-23.000 is a 4-way version. As dividers, both devices are capable of handling up to 30 Watts of average power with an operating temperature of -55 to +85 degrees C. Amplitude balance of the 802-3-23.000 is 0.5 dB maximum and 1.0 dB max for the 804-3-23.000. Maximum input VSWR is 1.80:1. Ideal for test and measurement applications, both power divider/combiners feature high performance, 2.9 mm female connectors on all ports.

Samples are available for qualified requirements through RFMW at 1-877-FOR RFMW (367-7369) within North America; or please find your local sales engineer (worldwide) at the contact page on the RFMW web site.

About RFMW

RFMW is a specialty electronics distribution company focused exclusively on serving customers that require RF and microwave components and semiconductors, as well as component engineering support. The company continues to expand its list of products from selective suppliers with RF/microwave expertise. RFMW deploys a highly experienced, technically skilled team to assist customers with component selection and fulfillment.
