Limiter Protects Receivers up to 40 GHz

9/7/2021 – San Jose, California: RFMW announces design and sales support for high frequency power limiters from Marki Microwave. Ideal for protecting sensitive components and for applications requiring high linearity, Marki’s HLM-40PSM, GaAs, Schottky diode, signal limiter provides 11 to 19 dBm flat leakage with low insertion loss and low return loss from DC through Ka band. Typical 1 dB compression point is 14 dBm. Power handling is 9.5 Watts peak or 2.5 Watts CW. Also available as wire bondable die or a connectorized module.

Samples are available for qualified requirements through RFMW at 1-877-FOR RFMW (367-7369) within North America; or please find your local sales engineer (worldwide) at the contact page on the RFMW web site.

About RFMW

RFMW is a specialty electronics distribution company focused exclusively on serving customers that require RF and microwave components and semiconductors, as well as component engineering support. The company continues to expand its list of products from selective suppliers with RF/microwave expertise. RFMW deploys a highly experienced, technically skilled team to assist customers with component selection and fulfillment.

To learn more about RFMW, visit their Website at www.rfmw.com, or call us at 1.877.FOR.RFMW (367-7369), or via e-mail at info@rfmw.com.
