Subject: End of Life Notification for a limited set of INMET PRODUCT

To: Our valued customers

INMET of Spectrum Control has conducted a thorough review of the product portfolio and has concluded that there were far too many SKUs in our offering to effectively manage them. We have come to the decision to End of Life several SKU's. A list of the SKUs is available from our Sales Channel Partner.

We continue to offer a significant portfolio of product for use in your applications. Do not hesitate to contact your sales associate at RFMW.

Sincerely

A handwritten signature in black ink, appearing to read 'Leonardo Marsala'.
